- **aia international studio info**

In the year 2000 Eduardo Alvarez (Uruguay), Verônica Camisão (Brazil), Claudia Sánchez (Colombia) and Xavier García-Milà (Spain), founded **AyA - Arquitectura y Accesibilidad** (nowadays **aia international**) a broad structure framework that integrates professionals from different disciplines to develop architecture and accessibility projects both in Latin America and in Europe.

The **universality of design and accessibility** used as pillars for social inclusion and integration is the cornerstone of all spatial conception in both projects and consultancies.

aia's offices are currently located in Montevideo (Uruguay), Rio de Janeiro (Brazil), Bogotá (Colombia), Barcelona (Spain) aia is a **network of professionals** composed primarily of architects and interior designers and supported by external collaborators in the technical areas of structure design, facilities, urban planning, domotics and landscape architecture, to ensure excellence in the projects undertaken.
